Cargill Saltworks (Jason Brush/Nancy Woo): Cargill and developer DMB are proposing to develop a 1,436 acre salt production site in Redwood City that was formerly tidal marsh. The "50/50 Balanced Plan" would develop about half the site and utilize half for open space and tidal restoration. EPA has used our CWA authority to "special case" the jurisdictional determination of the site to determine whether, and to what extent it is regulated under the CWA. The Army Corps of Engineers would normally approve jurisdictional determinations, making this an unusual circumstance.

Hi Nancy

It is my recollection that Paul Amato provided briefing papers on Cargil and [REDACTED] When Tomás started his new position. If additional information is needed, we can provide that to you on Monday morning when folks are in the office.

Thanks, E.
